

AERODINE

Design by
Julian Langevin

Description

The Aéroline table lamp is a hybrid object, somewhere between a light and a mobile. Its shape, comprising a slim brushed steel structure to which a shade is fixed, gives the illusion of fragile, almost breakable balance. Aéroline can perch on the corner of a wardrobe or the edge of a bed, the corner of a table or even the edge of a shelf. Structure and counterbalance 'brushed alu effect' Epoxy aluminium lacquered steel. Shade in PVC with brushed aluminium effect on front and back. Transparent electric cable. Foot switch (located 2m from cable exit). Supplied with a 20 cm LED ribbon giving a total power of 4.8 W and 355 Lumens or the equivalent of a 35 W incandescent bulb. Colour temperature 2700 K (warm white). Plug-in LED driver supplied with interchangeable Euro, UK and US plugs. The same version can be used with both 220V and 110V currents. THIS LIGHT CONTAINS INTEGRAL LED LIGHTS OF ENERGY CLASS A+. THE LEDS IN THIS LIGHT CANNOT BE CHANGED.
