

CATS

Design by

Marie Christine Domer

Description

The CATS stool is first and foremost a work based around solid wood and the notion of series. Stackable in fours, the four seats are each engraved with the lines of a different motif; the craftsman's hand can clearly be seen here!

Set of 2 stools in black-stained ash, grooved on the seat and finished in natural varnish. The grooves allow the natural oak to be seen. Choice of 4 designs. These stools are sold in twos, within a single box (designs 1 + 2 in one box, designs 3 + 4 in another). A maximum of 4 stools may be stacked together. Dimensions of 4 stools when stacked: H 61 x Ø 41 cm.

These stools may easily be used as occasional table or bedside table.
