

# COVER

**Design by**

Marie Christine Domer

**Description**

The name COVER is just as evocative of the concept as it is of the function. Its comfort and sensuality mask brazen simplicity of use: the cover of COVER can be removed in a matter of seconds, making maintenance almost a pleasure. The cover is draped over the structure like a throw, seeming to hover over it.

**Technical Specifications**

**CONSTRUCTION**

Structure of sofas in high resilience Bultex foam; footstool has a wooden structure made from 3-layer particleboard. Black polypropylene gliders.

**COMFORT**

High resilience Bultex foam (36 kg/m3 - 2.7 kPa, 38 kg/m3 - 3.6 kPa). Polyether foam (28 kg/m3 - 4.8 kPa, 34 kg/m3 - 6.4 kPa). Core of the sofa's armrests in molded foam.

**MAKING-UP**

The medium and large Cover sofas are composed of a base and a 'cover,' which is draped over the base and is held in position by toggles at the rear of the seat. These items may be bi-color and/or bi-material.

The base is covered in fabric (to order) + base cloth.

The stitching of the cover follows the outline of the back and armrests, creating a geometric effect which appears completely random. The stitching serves to 'quilt' the covering fabric used, while the top and lower fabrics act to sandwich 300 g/m2 polyester quilting. Progressive V-shaped motifs (denser towards the middle of the seat and less so at the edges). The cover may be removed easily and may be dry cleaned.

Footstool: baguette stitching around the edges. The cover is quilted with 110 g/m2 polyester.

Settees are systematically supplied with a 15 3/4" x 15 3/4" feather-filled cushion, upholstered in the same covering material as the main cover. This cushion is also priced separately to enable additional cushions to be ordered ; additional cushions may be made up in any fabric or leather from the collection.
